Index

Acari,
Halozetes belgicae (Michael) in the maritime Antarctic, 53-59
Adamussium colbecki,
unprotected larval development in the Antarctic scallop, 151-157
Ainley, D.,
review of *Penguin Biology*, 343-344
AINLEY, D.G. (*with* RIBIC, C.A., & FRASER, W.R.) 181-186
ALEXANDER, S.P. (*with* BERKMAN, P.A. & WALLER, T.R.) 151-157
algae,
limnological properties of frozen Antarctic ponds, 379-388
algal assemblages,
freshwater stream ecosystems of James Ross Island, Antarctica, 265-275
aliphatic,
hydrocarbons in the Antarctic marine environment, 233-250
alkaline dykes,
lamprophyre dykes from the Vestfold Hills, 419-432
ALLIBONE, A.H. (*with* COX, S.C.) 405-417
Alph River,
aqueous geochemistry of major constituents in Walcott Bay, 73-86
Amphipoda,
new *Epimeria* from the Weddell Sea, 159-166
Angel, M.V.,
review of *Antarctic ecosystems: ecological change and conservation*, 339-344
Antarctic Peninsula,
chimaeroid fish remains from Seymour Island, 323-330
Late Eocene gadiform (Teleostei) skull from Seymour Island, 87-95
seismic reflection investigations, 217-222
Antarctic petrels,
chick rearing in Prydz Bay, 19-27
Antarctic Sector of the Pacific, reviewed by A. Clarke, 111-112
Antarctica's future: continuity or change? reviewed by W.N. Bonner, 114
Aqueous geochemistry of major constituents in the Alph River, 73-86
Arctic,
variations in total column abundances of atmospheric carbon monoxide and methane, 443-449
ARMSTRONG, A.J., (*with* SIEGFRIED, W.R.) 13-18
ARNOULD, J.P.Y., (*with* WHITEHEAD, M.D.) 19-27
ARNTZ, W. (*with* GORNY, M. & GUTT, J.) 363-369
Aulacomyella,
from the Early Tithonian (Late Jurassic) of Antarctica, 97-107
AVHRR data,
classification of Antarctic surfaces, 333-338

bacteria,
a diel study on neuston and plankton, 47-51
basal melting,
numerical modelling of ice shelf dynamics, 187-195
BATTRAM, J.C., (*with* JOHNSTON, I.A.) 29-33
Behrendt, J.C.,
review of *The future of Antarctica*, 452
benthic invertebrates,
population dynamics of *Sterechinus antarcticus*, 251-256
larval development in *Adamussium colbecki*, 151-157
BERKMAN, P.A., (*with* WALLER, T.R., & ALEXANDER, S.P.) 151-157
biogeography
Halozetes belgicae (Michael) in the maritime Antarctic, 53-59
biomass,
distribution and abundance of post larval krill near Prydz Bay, 279-292
BIRKENMAJER, K. (*with* FRANCALANCI, L. & PECCERILLO, A.) 293-308
bivalvia,
Aulacomyella from the Early Tithonian (Late Jurassic), 97-107
unprotected larval development in the Antarctic scallop *Adamussium colbecki*, 151-157
BJÖRK, S., (*with*) HAKANSSON, H. ZALE, R., KARLÉN, W. & JÖNSSON, B.L. 61-72
BLACK, L.P. (*with* YOUNG, D.N.) 205-216
Bonner, W.N.,
review of *Antarctica's future: continuity or change?* 114
Book reviews,
A practical guide to the euphausiids of the world, reviewed by G. Hosie, 227
Antarctic ecosystems: ecological change and conservation, reviewed by M.V. Angel, 339-344
Antarctic Sector of the Pacific, reviewed by A. Clarke, 111-112
Antarctic siphonophores from plankton samples of the United States Antarctic Research Program, reviewed by H. Weikert, 223
Antarctica's future: continuity or change? reviewed by W.N. Bonner, 114
Antarctica: the Ross Sea region, reviewed by D.W.H. Walton, 344
Atmospheric Sciences in Antarctica, reviewed by M.J. Rycroft, 223-224
Earth Science in Antarctica, reviewed by M.R.A. Thomson, 113
Elsevier's dictionary of glaciology, reviewed by D. Peel, 341-342
From Antarctica to outer space - life in isolation and confinement, reviewed by H. Ursin, 451-452
Geological evolution of Antarctica, reviewed by J.W. Sheraton, 455-456
Geological history of the polar oceans: Arctic versus Antarctic, reviewed by A.K. Cooper, 454-455
Geosciences in Victoria Land, Antarctica reviewed by M.R.A. Thomson, 113
North Pole, South Pole: a guide to the ecology and resources of the Arctic and Antarctic, reviewed by L. Sømme, 340

Penguin Biology, reviewed by D.G. Ainley, 343-344
Permafrost and periglacial processes, reviewed by D.W.H. Walton, 453
Physical principles of remote sensing, reviewed by J. Turner, 225
Polar marine diatoms, reviewed by R. Ligowski, 453-454
Proceedings of the International Symposium on Antarctic Research, reviewed by D.W.H. Walton, 113-114
The exploration of Antarctica, the last unspoilt continent, reviewed by D.F. Parmalee, 225-226
The future of Antarctica, reviewed by J.C. Behrendt, 452
The growth and decay of ice, reviewed by P. Langhorne & V.A. Squire, 342-343
The natural history of seals, reviewed by P. Shaughnessy, 110-111
University research in Antarctica: Proceedings of British Antarctic Survey Antarctic Special Topic Award Scheme Symposium 1988, reviewed by G.E. Fogg, 341
Volcanoes of the Antarctic Plate and Southern Ocean, reviewed by A. Woolley, 111
Wild Ice - Antarctic Journeys, reviewed by L. Kappen, 224
Brazier, P. (*with* Hawes, I.) 265-271
Breuer, M. (*with* Kappen, L.) 273-278
Brey, T., 251-256
Broady, P.A. (*with* Kibblewhite, A.L.) 35-45
Burckle, L.H. (*with* Pokras, E.M.) 389-403
Burton, H.R. (*with* Williams, R. & Green, K.) 359-361

Cape petrel,
chick rearing in Prydz Bay, 19-27
carbon monoxide,
variations in total column abundances, 443-449
Casey station,
photosynthesis in continental lichens, 273-278
CCAMLR,
krill fishing activity in the Southwest Atlantic, 351-358
Chimaeroid fish remains from Seymour Island, 323-330
chlorophyll *a*,
limnological properties of frozen Antarctic ponds, 379-388
Clarke, A.,
review of *Antarctic Sector of the Pacific*, 111-112
Clarke, K.J. (*with* Davey, M.C.) 257-263
Classification of Antarctic surfaces using AVHRR data: a multispectral approach, 333-338
clupeids,
first articulated teleost fish from the Paleogene of West Antarctica, 309-316
consumption of krill by Minke whales, 13-18
Cooper, A.K.,
review of *Geological history of the polar oceans: Arctic versus Antarctic*, 454-455
Cox, S.C. (*with* Allibone, A.H.) 405-417
crabeater seals,
habitat selection by marine mammals in the marginal ice zone, 181-186
Cretaceous,
an ornithopod dinosaur from the West Antarctica, 331-332
Cripps, G.C. (*with* Priddle, J.) 233-250
crustacea,
new *Epimeria* from the Weddell Sea, 159-166
spatial distribution of Antarctic shrimps, 363-369
cryptogams,
photosynthesis in continental lichens, 273-278
cryptostigmatid mite *Halozetes belgicae* (Michael) in the maritime Antarctic, 53-59
Cyanobacteria,
freshwater stream ecosystems, 265-275
Oscillatoriales from Ross Island and southern Victoria Land, 35-45
spatial distribution of microalgae on Antarctic fellfield soils, 257-263

Dalmatian Granite,
H.U. Sverdrupfjella, Dronning Maud Land, 197-204
Davey, M.C. (*with* Clarke, K.J.) 257-263
DDT,
PCB's and pesticides in the Southern Ocean, 371-377
De Broyer, C. (*with* Klages, M.) 159-166
De Mora, S.J. (*with* Moskal, W.,Schmidt, S., Howard-Williams, C. & Vincent, W.F.) 379-388
De Mora, S.J., (*with* Whitehead, R.F. & Gregory, M.) 73-86
Debate,
preliminary results of seismic reflection investigations, 217-222
Decapoda,
spatial distribution of Antarctic shrimps, 363-369
deformation,
petrogenesis of orthogneisses in the Dry Valleys, 405-417
Delor, C.P, (*with* Rock, N.M.S.) 419-432
Determann, J., 187-195
diel variation,
freshwater stream ecosystems of James Ross Island, 265-275
study of pond neuston and plankton bacteria, 47-51
diet,
Antarctic fur seals around Heard Island, 359-361
petrels and fulmars in Prydz Bay, 19-27
dinosaur,
ornithopod from the Late Cretaceous of West Antarctica, 331-332
distribution and abundance
euphausiid larvae in Prydz Bay, 167-180
post larval krill near Prydz Bay, 279-292
Doyle, P. (*with* Kelly, S.R.A.) 97-107
Dronning Maud Land,
Dalmatian Granite, H.U. Sverdrupfjella, 197-204
interpretation of geomagnetic anomalies, 317-321

Earth Science in Antarctica, reviewed by M.R.A. Thomson, 113
East Antarctica,
interpretation of geomagnetic anomalies in Dronning Maud Land, 317-321
U-Pb zircon dating of proterozoic igneous charnockites from the Mawson Coast, 205-216
Eastman, J.T. (*with* Grande, L) 87-95
ecological and physiological investigations in continental Antarctic cryptogams, 273-278
ecological considerations of Antarctic ozone depletion, 3-11
ecosystem impact,
consumption of krill by Minke whales, 13-18
editorials,
Elliot, D.H.,1

Heap, J.A., 123
Laws, R.M., 231
Walton, D.W.H., 349
Eocene gadiform (Teleostei) skull from Seymour Island, 87-95
Epimeria,
(Crustacea, Amphipoda, Paramphithoidae) from the Weddell Sea, 159-166
Euphausia superba,
distribution and abundance of post larval krill near Prydz Bay, 279-292
euphausiid larvae,
distribution and abundance in Prydz Bay, 167-180
EVERSON, I. (*with* Goss, C.) 351-358

feeding,
consumption of krill by Minke whales, 13-18
new *Epimeria* from the Weddell Sea, 159-166
petrels and fulmars in Prydz Bay, 19-27
Filchner-Ronne ice shelf,
numerical modelling of ice shelf dynamics, 187-195
thermohaline circulation beneath, 433-442
fish,
chimaeroid remains from Seymour Island, Antarctic Peninsula, 323-330
first articulated teleost fish from the Paleogene of West Antarctica, 309-316
muscle growth in *Notothenia neglecta*, 29-33
reproduction in Antarctic notothenioids - review, 125-150
petrels and fulmars rearing chicks in Prydz Bay, 19-27
Fogg, G.E.,
review of *University research in Antarctica: Proceedings of British Antarctic Survey Antarctic Special Topic Award Scheme Symposium 1988*, 341
fossils,
chimaeroid remains from Seymour Island, Antarctic Peninsula, 323-330
first articulated teleost fish from the Paleogene of West Antarctica, 309-316
Late Eocence gadiform (Teleostei) skull from Seymour Island, 87-95
Late Holocene lake sediments sequence from Livingston Island, 61-72
Pliocene stand of *Nothofagus* near the South Pole, 379-403
FRANCALANCI, L. (*with* BIRKENMAJER, K.& PECCERILLO, A.) 293-308
FRASER, W.R. (*with* RIBIC, C.A. & AINLEY, D.G.) 181-186
freshwater,
a diel study on neuston and plankton, 47-51
Oscillatoriales from Ross Island and southern Victoria Land, 35-45
fur seals,
diet of Antarctic fur seals around Heard Island, 359-361
habitat selection by marine mammals in the marginal ice zone, 181-186

gadiform evolution,
Late Eocence gadiform (Teleostei) skull from Seymour Island, 87-95
geochemistry,
aqueous geochemistry of Alph River, 73-86
lamprophyre dykes from the Vestfold Hills, 419-432
Mesozoic-Cenozoic magmatism of King George Island, 293-308
geomagnetic anomalies,
interpretation in Dronning Maud Land, East Antarctica, 317-321
geophysics,
debate- preliminary results of seismic reflection investigations, 217-222
interpretation of geomagnetic anomalies in Dronning Maud Land, East Antarctica, 317-321
Geosciences in Victoria Land, Antarctica reviewed by M.R.A. Thomson, 113
glacial history,
Pliocene stand of *Nothofagus* near the South Pole, 379-403
gonad production,
population dynamics of *Sterechinus antarcticus*, 251-256
gonadsomatic index,

squid,
diet of Antarctic fur seals around Heard Island, 359-361
Squire, V.A. & Langhorne, P.
review of *The growth and decay of ice*, 342-343
Sterechinus antarcticus,
on the Weddell Sea shelf and slope, Antarctica, 251-256
stratigraphy
Late Holocene lake sediments sequence from Livingston Island, 61-72
Subantarctic Macquarie Island, reviewed by R.I. Lewis Smith, 109-110

taxonomy,
Oscillatoriales from Ross Island and southern Victoria Land, 35-45
Teleostei,
from the Paleogene of West Antarctica, 309-316
Late Eocence gadiform skull from Seymour Island, 87-95
The natural history of seals, reviewed by P. Shaughnessy, 110-111
thermohaline circulation beneath the Filchner-Ronne Ice Shelves, 433-442
Thomson, M.R.A.,
review of *Geosciences in Victoria Land, Antarctica*, 113
Thysanoessa,
distribution and abundance of euphausiid larvae in Prydz Bay, 167-180
Turner, J.
review of *Physical principles of remote sensing*, 225

U-Pb zircon dating,
of Proterozoic igneous charnockites from the Mawson Coast, 205-216
ultraviolet,
ecological considerations, 3-11
underwater photography,
spatial distribution of Antarctic shrimps, 363-369
Ursin, H.,
review of *From Antarctica to outer space - life in isolation and confinement*, 451-452
Usher, M.B. (*with* Shepherd, G.J. & Minto, L.B.) 53-59

Vestfold Hills,
lamprophyre dykes from the Vestfold Hills, 419-432
Victoria Land,
aqueous geochemistry of major constituents in the Alph River, 73-86
Vincent, W.F. (*with* Moskal, W. De Mora, S.J., Howard-Williams, C. & Schmidt, S.) 379-388
Volcanoes of the Antarctic Plate and Southern Ocean, reviewed by A. Woolley, 111

Wagner, S. (*with* Linder, H.) 317-321
Waller, T.R. (*with* Berkman, P.A., & Alexander, S.P.) 151-157
Walton, D.W.H.,
review of *Antarctica: the Ross Sea region*, 344
review of *Proceedings of the International Symposium on Antarctic Research*, 113-114
Ward, D.J. (*with* Grande, L.) 323-330
weathering,
aqueous geochemistry of major constituents in the Alph River, 73-86
Weddell Sea,
new *Epimeria* (Crustacea, Amphipoda, Paramphithoidae) 159-166
population dynamics of *Sterechinus antarcticus*, 251-256
Weddell Sea,
spatial distribution of Antarctic shrimps, 363-369
Weikert, H.
review of, *Antarctic siphonophores from plankton samples of the United States Antarctic Research Program*, 223
whales,
habitat selection by marine mammals in the marginal ice zone, 181-186
Whitehead, R.F. (*with* De Mora, S.J. & Gregory, M.) 73-86
Wilkes Land,
photosynthesis in continental lichens, 273-278
Williams, R. (*with* Green, K. & Burton, H.R.) 359-361
Woolley, A.,
review of *Volcanoes of the Antarctic Plate and Southern Ocean*, 111

Young, D.N. (*with* Black, L.P.) 205-216
Yurganov, L.N. (*with* Radionov, V.F.) 443-449

Zale, R. (*with* Björk, S., Hakansson, H, Karlén, W. & Jönsson, B.L.) 61-72
Zibordi, G. (*with* Meloni, G.P.) 333-338
